

DEVON

Hand Glazed,
Made in Italy

Devon collection is, evocative of time-worn glazed cotto tiles. There is an unrefined beauty and cosmetic traces of aging after years and seasons. Some layers of paint are stripped and revealing a raw feel. These cosmetic elements all come together to celebrate the life of the space, property and the life lived within. Ultimately, the state of how tiles appear showcases a lived-in look over decades life. This look has been carefully and cheerfully replicated by the artisan tile maestros of northern Italy with the techniques developed in the process of manufacturing. Surface look of each tile is unique to itself as each tile has been finished by hand glazing. No ink jet glazing at any time during production. 5 colors and a trim piece of mini-quarter round (jolly- 3/8" x 8") is also available to finish the edges.
