Color Body, Made in Italy

ALMERIA

Almeria is a - natural stone concept - porcelain tile. Meticulous development work done on colors and technical properties to achieve the Modern Mediterranean interpretation in design, pattern and format. Portraying much like natural stone characteristics, such as like matching color body and a smooth textured finish, the biggest advantage is the wide choices of sizes available. 3" x 12", 12" x 24", 8" x 48, 24" x 48" or 48" x 48". With only 3/8" thickness on all sizes available, there is a huge advantage in terms of practicality of installation as well as creativity of different sizes forming a pattern. Made in Imola, Italy.
