

# Porcelain

Multiple Sizes, Made in Italy  
Color Body, Non Rectified

BODEGA series porcelain tiles are made in Italy, to replicate the poured resin or concrete floor. As opposed to an industrial cementitious floor concept, poured concrete in its liquid state may be mixed with epoxy resin components to provide a seamless, uniform, crack free look, therefore achieving a slick and modern look in larger floors. Process allows the installer to create patterns or finish it with a trowel, which mimics the hand-crafted touch. Bodega successfully incorporates this design concept, adding value with hassle free installation and a great budget. Along with a 24" x 24" tiles, 6" x 24" and 10" x 12" Hexagon's are available in stock for walls and floors, complimenting the large squares.
